Welkom

Now in its
23rd year

The International Forum on Quality and Safety in Healthcare will showcase the very best of healthcare improvement from across the world and reflect on the solutions for the challenges we face.

Join over 3,000+ attendees from over 70 countries who strive to make patient care better. We aim to improve outcomes for patients and communities, provide practical solutions that can be implemented within the workplace, foster effective innovation and connect healthcare leaders and practitioners around the world.

This two day event will be developed in close partnership with regional hospital groups and will bring together both local and global healthcare leaders to highlight healthcare initiatives.

Reach these decision makers via this premier event where an inspirational programme is created to engage, energise and evolve healthcare. Our co-chairs, together with our local advisory committee, will create a programme that is relevant, engaging and timely for delegates.

Join us.

Region Update

- Well-developed healthcare system.
- A well-developed R&D environment.
- As the population of the Netherlands ages, private healthcare firms stand to benefit from rising healthcare expenditure.
- Possibility of more friction in the health insurance system as premiums come under pressure from an ageing population.

BMI Netherlands Pharmaceuticals and Healthcare Report Q1 2017

Our Committee provide intelligence and insight into quality and safety needs, healthcare trends and best practices.
