

## International Improvement Science and Research Symposium 2018

What does good evidence mean? Ulrica Schwarz, Professor in Psychology, PROCOME at Medical Management Centre (MMC), Karolinska Institutet Julie Reed, Deputy Director and Academic Lead for the National Institute of Health Research (NIHR) Collaboration for Leadership in Applied Health Research and Care (CLAHRC) Northwest London. Gareth Parry, Senior Scientist, Institute for Healthcare Improvement (IHI)  10:30 - 1100  REFRESHMENTS  Selected abstract presentations  Successfully Implementing Quality Improvement: Getting to "How" - Liane Ginsburg, Associate Professor, School of Health Policy & Management, York University, Canada  Modelling of the system architecture of a cardiac surgical team and the patterns emerging from interactions through verbal communications among team members - Kazue Nakajima, Quality Management, Patient Safety, Public Health, Osaka University; Japan  Learning Cafe' group education program with atrial fibrillation patients – a model for co-production - Anne-Marie Suutari, Medical doctor, Highland Hospital (Höglandssjukhuset), Eksjö, Region Jönköping County, Sweden  Achieving Population Health through Mental Health Integration & Team-based Care: Improved Wellbeing at Lower Cost - Brenda Reiss-Brennan, Mental Health Integration Director, Intermountain Healthcare, USA  12:45 - 13:30  LUNCH  13:30 - 15:15  Interactive poster presentation discussions See overleaf for details  REFRESHMENTS  Debate - How do we answer the questions that matter to patients? Simon Denegri, INVOLVE Sara Riggare, PHD Student, Karolinska Institutet and Self Care Expert Chris Subbe, Honorary Senior Clinical Lecturer and Consultant Physician, Bangor. University, Bangor, UK. Improvement Science Fellow, The Health Foundation, London, UK					
Ulrica Schwarz, Professor in Psychology, PROCOME at Medical Management Centre (MMC), Karolinska Institutet Julie Reed, Deputy Director and Academic Lead for the National Institute of Health Research (NIHR) Collaboration for Leadership in Applied Health Research and Care (CLAHRC) Northwest London. Gareth Parry, Senior Scientist, Institute for Healthcare Improvement (IHI)  10:30 - 1100  REFRESHMENTS  Selected abstract presentations  Successfully Implementing Quality Improvement: Getting to "How" - Liane Ginsburg, Associate Professor, School of Health Policy & Management, York University, Canada  Modelling of the system architecture of a cardiac surgical team and the patterns emerging from interactions through verbal communications among team members - Kazue Nakajima, Quality Management, Patient Safety, Public Health, Osaka University; Japan  Learning Café group education program with atrial fibrillation patients – a model for co-production - Anne-Marie Suutari, Medical doctor, Highland Hospital (Höglandssjukhuset), Eksjö, Region Jönköping County, Sweden  Achieving Population Health through Mental Health Integration & Team-based Care: Improved Wellbeing at Lower Cost - Brenda Reiss-Brennan, Mental Health Integration Director, Intermountain Healthcare, USA  12:45 - 13:30  LUNCH  13:30 - 15:15  REFRESHMENTS  Debate - How do we answer the questions that matter to patients? Simon Denegri, INVOLVE Sara Riggare, PHD Student, Karolinska Institutet and Self Care Expert Chris Subbe, Honorary Senior Clinical Lecturer and Consultant Physician, Bangor. University, Bangor, UK. Improvement Science Fellow, The Health Foundation, London, UK	9.00 - 9:30	Introduction			
Selected abstract presentations  Successfully Implementing Quality Improvement: Getting to "How" - Liane Ginsburg, Associate Professor, School of Health Policy & Management, York University, Canada  Modelling of the system architecture of a cardiac surgical team and the patterns emerging from interactions through verbal communications among team members - Kazue Nakajima, Quality Management, Patient Safety, Public Health, Osaka University; Japan  'Learning Café' group education program with atrial fibrillation patients – a model for co-production - Anne-Marie Suutari, Medical doctor, Highland Hospital (Höglandssjukhuset), Eksjö, Region Jönköping County, Sweden  Achieving Population Health through Mental Health Integration & Team-based Care: Improved Wellbeing at Lower Cost - Brenda Reiss-Brennan, Mental Health Integration Director, Intermountain Healthcare, USA  12:45 - 13:30  LUNCH  13:30 - 15:15  Interactive poster presentation discussions See overleaf for details  15:15 - 15:45  REFRESHMENTS  Debate - How do we answer the questions that matter to patients? Simon Denegri, INVOLVE Sara Riggare, PHD Student, Karolinska Institutet and Self Care Expert Chris Subbe, Honorary Senior Clinical Lecturer and Consultant Physician, Bangor. University, Bangor, UK. Improvement Science Fellow, The Health Foundation, London, UK	9:30 - 10:30	Ulrica Schwarz, Professor in Psychology, PROCOME at Medical Management Centre (MMC), Karolinska Institutet Julie Reed, Deputy Director and Academic Lead for the National Institute of Health Research (NIHR) Collaboration for Leadership in Applied Health Research and Care (CLAHRC) Northwest London.			
Successfully Implementing Quality Improvement: Getting to "How" - Liane Ginsburg, Associate Professor, School of Health Policy & Management, York University, Canada  Modelling of the system architecture of a cardiac surgical team and the patterns emerging from interactions through verbal communications among team members - Kazue Nakajima, Quality Management, Patient Safety, Public Health, Osaka University; Japan  'Learning Café' group education program with atrial fibrillation patients – a model for co-production - Anne-Marie Suutari, Medical doctor, Highland Hospital (Höglandssjukhuset), Eksjö, Region Jönköping County, Sweden  Achieving Population Health through Mental Health Integration & Team-based Care: Improved Wellbeing at Lower Cost - Brenda Reiss-Brennan, Mental Health Integration Director, Intermountain Healthcare, USA  12:45 - 13:30  LUNCH  13:30 - 15:15  Interactive poster presentation discussions  See overleaf for details  15:15 - 15:45  REFRESHMENTS  Debate - How do we answer the questions that matter to patients?  Simon Denegri, INVOLVE  Sara Riggare, PHD Student, Karolinska Institutet and Self Care Expert Chris Subbe, Honorary Senior Clinical Lecturer and Consultant Physician, Bangor. University, Bangor, UK. Improvement Science Fellow, The Health Foundation, London, UK	10:30 - 1100	REFRESHMENTS			
Associate Professor, School of Health Policy & Management, York University, Canada  Modelling of the system architecture of a cardiac surgical team and the patterns emerging from interactions through verbal communications among team members - Kazue Nakajima, Quality Management, Patient Safety, Public Health, Osaka University; Japan  'Learning Café' group education program with atrial fibrillation patients – a model for co-production - Anne-Marie Suutari, Medical doctor, Highland Hospital (Höglandssjukhuset), Eksjö, Region Jönköping County, Sweden  Achieving Population Health through Mental Health Integration & Team-based Care: Improved Wellbeing at Lower Cost - Brenda Reiss-Brennan, Mental Health Integration Director, Intermountain Healthcare, USA  12:45 - 13:30  LUNCH  13:30 - 15:15  Interactive poster presentation discussions See overleaf for details  75:15 - 15:45  REFRESHMENTS  Debate - How do we answer the questions that matter to patients? Simon Denegri, INVOLVE Sara Riggare, PHD Student, Karolinska Institutet and Self Care Expert Chris Subbe, Honorary Senior Clinical Lecturer and Consultant Physician, Bangor. University, Bangor, UK. Improvement Science Fellow, The Health Foundation, London, UK	11.00 - 12:45 Selected abstract presentations				
emerging from interactions through verbal communications among team members - Kazue Nakajima, Quality Management, Patient Safety, Public Health, Osaka University; Japan  'Learning Café' group education program with atrial fibrillation patients – a model for co-production - Anne-Marie Suutari, Medical doctor, Highland Hospital (Höglandssjukhuset), Eksjö, Region Jönköping County, Sweden  Achieving Population Health through Mental Health Integration & Team-based Care: Improved Wellbeing at Lower Cost - Brenda Reiss-Brennan, Mental Health Integration Director, Intermountain Healthcare, USA  12:45 - 13:30  LUNCH  13.30 – 15.15  Interactive poster presentation discussions See overleaf for details  15:15 - 15:45  REFRESHMENTS  Debate – How do we answer the questions that matter to patients? Simon Denegri, INVOLVE Sara Riggare, PHD Student, Karolinska Institutet and Self Care Expert Chris Subbe, Honorary Senior Clinical Lecturer and Consultant Physician, Bangor. University, Bangor, UK. Improvement Science Fellow, The Health Foundation, London, UK		Associate Professor, School of Health Policy & Management, York University,			
co-production - Anne-Marie Suutari, Medical doctor, Highland Hospital (Höglandssjukhuset), Eksjö, Region Jönköping County, Sweden  Achieving Population Health through Mental Health Integration & Team-based Care: Improved Wellbeing at Lower Cost - Brenda Reiss-Brennan, Mental Health Integration Director, Intermountain Healthcare, USA  12:45 - 13:30  LUNCH  Interactive poster presentation discussions See overleaf for details  15:15 - 15:45  REFRESHMENTS  Debate – How do we answer the questions that matter to patients? Simon Denegri, INVOLVE Sara Riggare, PHD Student, Karolinska Institutet and Self Care Expert Chris Subbe, Honorary Senior Clinical Lecturer and Consultant Physician, Bangor. University, Bangor, UK. Improvement Science Fellow, The Health Foundation, London, UK		emerging from interactions through verbal communications among team members - Kazue Nakajima, Quality Management, Patient Safety, Public Health, Osaka			
Improved Wellbeing at Lower Cost - Brenda Reiss-Brennan, Mental Health Integration Director, Intermountain Healthcare, USA  12:45 - 13:30		co-production - Anne-Marie Suutari, Medical doctor, Highland Hospital			
13.30 – 15.15  Interactive poster presentation discussions See overleaf for details  15:15 - 15:45  REFRESHMENTS  Debate – How do we answer the questions that matter to patients? Simon Denegri, INVOLVE Sara Riggare, PHD Student, Karolinska Institutet and Self Care Expert Chris Subbe, Honorary Senior Clinical Lecturer and Consultant Physician, Bangor. University, Bangor, UK. Improvement Science Fellow, The Health Foundation, London, UK		Improved Wellbeing at Lower Cost - Brenda Reiss-Brennan, Mental Health			
See overleaf for details  15:15 - 15:45  REFRESHMENTS  Debate – How do we answer the questions that matter to patients? Simon Denegri, INVOLVE Sara Riggare, PHD Student, Karolinska Institutet and Self Care Expert Chris Subbe, Honorary Senior Clinical Lecturer and Consultant Physician, Bangor. University, Bangor, UK. Improvement Science Fellow, The Health Foundation, London, UK	12:45 - 13:30	LUNCH			
15:45 - 16:45  Debate – How do we answer the questions that matter to patients?  Simon Denegri, INVOLVE  Sara Riggare, PHD Student, Karolinska Institutet and Self Care Expert  Chris Subbe, Honorary Senior Clinical Lecturer and Consultant Physician, Bangor.  University, Bangor, UK. Improvement Science Fellow, The Health Foundation, London, UK	13.30 – 15.15	·			
Simon Denegri, INVOLVE Sara Riggare, PHD Student, Karolinska Institutet and Self Care Expert Chris Subbe, Honorary Senior Clinical Lecturer and Consultant Physician, Bangor. University, Bangor, UK. Improvement Science Fellow, The Health Foundation, London, UK	15:15 - 15:45	REFRESHMENTS			
16.45 - 1700 Summary and closing remarks	15:45 - 16:45	Simon Denegri, INVOLVE Sara Riggare, PHD Student, Karolinska Institutet and Self Care Expert Chris Subbe, Honorary Senior Clinical Lecturer and Consultant Physician, Bangor. University, Bangor, UK. Improvement Science Fellow, The Health Foundation,			
	16.45 - 1700	Summary and closing remarks			

## 2 - 4 May 2018 Amsterdam

Group	Topic	Presenter 1	Presenter 2	Facilitator (round one)	Facilitator (round two)
1	Implementing Quality Improvement	How do quality improvement methods support progress of healthcare improvement initiatives? Sophie Spitters,	Successfully Implementing Quality Improvement: Getting to "How" - Liane Ginsburg	Helen Hogan	Yogini Jani
2	Understanding audit	Understanding how and why audits work in improving the quality of hospital care: a realist review Lisanne Hut	Reflection on keynote 'what does good evidence mean?'	Alison Bullock	Alison Bullock
3	Co-producing care	Implementing appropriate local governance to develop people-centred integrated care: agent based modelling as a key step to update local stakeholder's credence - Jean Macq	'Learning Café' group education program with atrial fibrillation patients – a model for co-production - Anne- Marie Suutari	Johan Thor	Helen Hogan
4	Measuring impact	Achieving a balanced accounting of quality improvement impact: A qualitative analysis of interview data, narrative review and modified Delphi study - Madalina Toma	Julie Reed	Julie Reed	Julie Reed
5	Medication safety	Focusing on systems and not individuals: A mixed-methods study of how routine medication safety data have been used in English hospitals to aid improvement - Paryaneh Rostami,	Evaluating a national quality improvement programme: an interrupted time-series analysis of antibiotic prescribing data - Andrea Patton	Yogini Jani	Christian Von Plessen
6	Integrating care	Health care professionals' readiness for an interprofessional orthogeriatric unit. A questionnaire survey - Charlotte Abrahamsen	Achieving Population Health through Mental Health Integration & Team-based Care: Improved Wellbeing at Lower Cost - Brenda Reiss- Brennan	Christian Von Plessen	Chris Subbe
7	Motivation through measurement and communication	Meaningful registration, motivating healthcare professionals by measuring what really matters for quality in healthcare - Gepke Lolkje Veenstra	Modelling of the system architecture of a cardiac surgical team and the patterns emerging from interactions through verbal communications among team members - Kazue Nakajima	Chris Subbe	Johan Thor
8	Intermediate care Intervention	Inappropriate admissions or inappropriate discharges of the frail elderly: Competing programme theories in intermediate care interventions - Birgitte Nørgaard	Gareth Parry	Gareth Parry	Gareth Parry
