

A healthcare professional, likely a nurse or doctor, is shown in profile, wearing a white lab coat and white gloves. She is leaning forward, interacting with a young child with long blonde hair. The child is also in profile, looking towards the professional. The background is a plain, light-colored wall. A semi-transparent grey banner is overlaid across the middle of the image, containing the text.

**We count our success
in lives and equal health**

We make each other successful

The value is
created together
with the patients

Take home messages

Knowledge support and guidelines must be immediately accesible in the clinical meeting, and therefore formatted as clinical pathways

Support clinical meetings with role and situation based information

Standardised documentation combined with clinical pathways is vital to the success for the use of a clinical decision support system (CDS)

Everyone struggles with the same challenges – let's work together!
