# Salutas medical center, Lviv, Ukraine

**27 physicians and 4 practical nurses**

**50 different patient a day**

**Laboratory with different test system**

**Different options and services in the field of health for patients**

**Reconstructive surgery patients after combat trauma**

**The Russian invasion of Ukraine has caused situation that represents the antithesis of all that medicine and public health strive to achieve.**

**Beside conflict related trauma and injuries public health concerns in Ukraine, including our medical center of course, include risk of excess illness and death from noncommunicable diseases such as cardiovascular diseases, diabetes and cancer due to disruption in medical supply lines and health services of emergence.**

**Our physicians and other health professionals, who are dedicated to healing and preserving life, are on the forefront of emergency aid and humanitarian relief efforts during war.**

**Also in addition we have a global risk expressed and spread of infectious disease such as measles, polio, COVID 19, and other respiratory infections because of such factors as destruction of water and sanitation infrastructure, inadequate vaccination coverage, movement of significant number of people, and overcrowding.**
